

ATTENTION PARENTS!

Discover How To Avoid Another Summer of “I’m Bored!”

Parents,

Summer is getting close! If you’re like most parents that I know... you’re really busy. But the truth is... the summer will be here before you know it.

The BIG Question???

“What to do with the kids this summer?”

Maybe you’ve been considering a “Summer Camp Program.” But are concerned about 2 things...

- 1) **Will it be worth it?** Because let’s face it, a lot of summer camps don’t live up to their promises. It’s sad they end up just “warehousing” kids for the summer!

And...

- 2) What are the qualifications of the people/ camp counselors that my child will be spending their entire summer with?

Here’s the thing...

Camps that just “warehouse” kids for the summer and simply “employ their counselors for the summer” may work great for “the majority.” But what if that’s not how you want your child to spend his summer??

A few questions for you....

- Are looking for something a little more EXCLUSIVE?
- Would you be happy to see your child grow mentally and physically over the course of the summer?
- Would you like your child to learn success and character building skills while she’s having a ton of fun?
- Are you looking for a more “private atmosphere” where your child can get the attention she needs to boost her self-confidence?

And... Most Importantly...

- Would you like your child to spend their summer with a select group of positive peers that will support each other in reaching worthwhile goals??

If you answered yes to any of these questions then you should consider applying for one of the few spots in our extremely exclusive Mercer Island Martial Arts Summer Boot Camp....

In this special summer camp we build young winners over the course of the summer by...

- Building Self Confidence
- Increasing speed and flexibility
- Providing a positive and supportive atmosphere for kids to flourish in

“Before joining Mercer Island Martial Arts my son was too shy to participate in some of the activities at school. Now he comes home and says ‘mom let me show you what I did at school today with all of my friends’. It’s because of what he has learned here that has provided him with the confidence he has today”. –Jennifer Muscatel, mom

Remember this...

The Wrong Camp Can Put Your Child at Risk...

Of course- there’s no shortage of options for you when it comes to summer camps. There are music camps, academic camps, daycares, sports camps and the list goes on. The major problem is that these camps lean too far to one side.

Meaning...

Some lean totally toward the academics which results in bored kids with a bunch of stored up energy and frustration. You know where they’re going to let that out right?? When they get home!

Some lean totally toward the sports and don’t challenge the kids mentally. This approach makes it harder when back to school time comes around!

Other camps are just glorified baby-sitters where overall leadership is lacking!

The best option is really right in your hands...

....And that’s to combine summer time fun with sports and martial arts along with mental training that will enhance your child’s mind for back to school time. Then - when you add in the success skills component of teaching the campers about...

Self-Respect • Self-Discipline • Self-Control • Confidence • AND MORE!!!

You get a winning formula and experience that can’t be matched!

No other camp in the Seattle area combines the physical, mental and life skills of martial arts training with summer fun and academic challenges!

With this formula the end result is a child who is positively impacted for the rest of her life!

You really couldn’t ask for anything else, could you?
